## EDUCATION

### Campina Grande Federal University

2018 - 2023

Campina Grande - PB, Brazil

Bachelor of Computer Science

★ 8.45/10 Cumulative GPR

### Langara College

2024 - 2025

Vancouver - BC, Canada

Post-Degree in Web & Mobile App Design & Development

★ 4x Dean's Honour Roll ★ 4.03 CGPA

## WORK EXPERIENCE

### Millennium IE

2021

Campina Grande - PB, Brazil

#### Full-stack Web Development Intern

This small local company has many web applications that are either for internal control or for the general public, and I was responsible for developing new functionalities, designing, maintaining, testing and deploying them. I even automated some tiring tasks with a command line robot written in Java!

#### Tech Stack:

Java, JSP, Oracle SQL, Apache

#### Key responsibilities:

- ◆ Full-stack development
- ◆ Database management
- ◆ UX/UI Design
- ◆ Software engineering

### Wipro

2023

Recife - PE, Brazil

#### Junior Full-Stack Web Developer

I worked on web-based control systems for the Transit Department of the State of Pernambuco, Brazil. These apps were used both internally by the department officers and by the general public for booking services, registering and controlling vehicles, and generating reports.

#### Tech Stack:

.NET, C#, JavaScript, MySQL, TortoiseSVN

#### Key responsibilities:

- ◆ Full-stack development
- ◆ Basic database management
- ◆ Meeting deadlines following SCRUM
- ◆ Versioning with TortoiseSVN

### Langara College

2025

Vancouver - BC, Canada

#### Full-Stack Web Developer

During my last term in Langara College, I got the part-time position of full-stack developer at the Fine Arts department. The system I was responsible for was a headless CMS built with Next.js and WordPress that serves as a platform for graduates of the Fine Arts program to publish their work.

#### Tech Stack:

Next.js, WordPress, GraphQL, AWS, Apache

#### Key responsibilities:

- ◆ Full-stack development
- ◆ Direct communication with clients
- ◆ Versioning with Git

# INDIVIDUAL AWARDS

Community Leadership Award

Awarded by Langara College

For my participation as a panelist at student's final project presentations

2025

## CERTIFICATES

HarvardX CS50's Web Programming with Python and JavaScript Professional Certificate

Issued by HavardX

Skills: HTML, CSS, JavaScript, Python, Django, SQL, Full-stack development

2021

Developing Cloud Applications with Node.js and React

Issued by IBM

Skills: Node.js, React, JavaScript, Express.js, Full-stack development

2021

Docker Foundations Professional Certificate

Issued by LinkedIn Learning, Docker

Skills: Docker, Docker Compose, Containerization, DevOps

2025

## PROJECTS

Favr

Web

Langara College

A PWA that improves the life quality of senior citizens by connecting them with volunteer students. This project is part of Langara's Post-Degree Diploma in Web and Mobile App Design and Development program and it demanded that our team of 8 people (4 designers and 4 developers) built a MVP of our idea in less than 12 weeks.

 <https://favr.onrender.com>

Tech Stack

HTML, CSS, JavaScript, Firebase

Key responsibilities

- ◆ Full-stack development
- ◆ Database design & management

Impact

- ◆ Best Web Product Award

BodyBuddy

Web

Langara College

An AI-powered fitness web platform for people who want to exercise in their own homes or on the go, at their own pace. The AI analysis checks your form in real-time, ensuring correct posture for a safe and effective workout. It also helps you create personalized workout plans based on your fitness level and goals using OpenAI API.

Tech Stack

HTML, CSS, JavaScript, PostgreSQL, MediaPipe, React, Node.js, Express

Key responsibilities

- ◆ Technical Leadership
- ◆ Database design & management
- ◆ Full-stack development

Impact

- ◆ Featured at Web Summit 2025 Vancouver Conference

DriveBuddy

Web, Mobile

Langara College

An AI-powered mobile app designed to help drivers stay safe by detecting early signs of drowsiness. The Administrator Dashboard (a web platform) provides real-time insights into driver safety, alerting companies to potential risks before they become incidents.
